## ABOUT

Full Stack Web Developer specializing in the **MERN** stack, with a strong commitment to continuous learning and growth. Completed an intensive full-stack development course and expanded skills through self-driven study of technologies such as **TypeScript** and **MUI**.

## EDUCATION

### Full-Stack Development HackerU 2023-2025

Completed a 600-hour Full-Stack Development course, gaining hands-on experience in creating responsive landing pages, user-friendly web applications, and APIs using both frontend and backend technologies.

## PROJECTS

### Wordaday | Word Guessing Game | React | Node.JS

Recreated the popular Wordle game from scratch using React and Node.js, including designing and implementing a custom API that selects a random word and resets the game state for users to enable cross-platform functionality

### Spendify | Personal Budget Tracker | React | MUI

Developed a responsive web app for managing monthly expenses using React, Typescript and MUI. Implemented robust state management to efficiently track expenses via different categories using the reducer hook

## WORK EXPERIENCE

### IT & Help Desk IKEA | 2024 - Today

- Provided support in Windows 10/11 and Microsoft 365 environments and Microsoft Office applications (Word, Excel, Outlook, etc...)
- Managed user accounts, permissions, and group memberships in Active Directory.
- Provided support for third-party vendor applications used across the organization.
- Assisted users with printer-related issues, including configuration, driver installation, and connectivity problems.
- Created basic PowerShell scripts to automate and resolve common recurring IT issues.

### Sales Representative IKEA | 2022 - 2024

Provided in-person support to customers on the sales floor, offering product knowledge and recommendations. Developed strong customer service skills such as clear communication and strategic sales approaches. Engaged curious customers to drive sales and ensured personal needs.

### Combat Intelligence Collection Corps IDF | 2017-2020
